

first and second class high water rights: and he shall be entitled, in common with the owners of fourth class high water rights, to water necessary to fill his reservoir in Lake creek canyon, known as the <sup>55-8766</sup> "Anderson" reservoir, to its present capacity, whenever the water flowing in said Lake creek shall exceed in volume the amount awarded to the Primary and the first, ~~xxxxxxx~~ second and third class high water rights.

Fourth. That Henry J. Clegg is entitled, in common with the owners of fourth class high water rights, to water necessary to fill his reservoir in Lake creek canyon, located north of the Bald knoll at the head of Lake creek and Center creek canyons, to its present capacity, whenever the water flowing in said Lake creek shall exceed in volume the amount herein awarded to the Primary and the first, second and third class high water rights.

Fifteenth. That Abraham Hatch is entitled, in common with the owners of fourth class high water rights, to water necessary to fill his reservoir in Lake creek canyon, known as the <sup>55-8767</sup> "Hatch" reservoir, to its present capacity, whenever the water flowing in said Lake creek shall exceed in volume the amount herein awarded to the Primary and the first, second and third class high water rights.

Sixteenth. That the aforesaid owners of reservoirs in Lake creek canyon, and each of them, shall have the right to use the natural channel of said Lake creek, to convey their water from their said reservoirs to the head of their respective canals or ditches, and for that purpose to mingle the water from their said reservoirs with the natural flow of the said Lake creek, at such times or times as they, or each, or any of them, may elect; provided that whenever the owner of any reservoir hereinabove named shall elect to convey the water from his said reservoir and intermingle the same with the natural flow of the said Lake creek, or any part or portion thereof, the said owner shall notify the Lake Creek Irrigation company, or other party having the control or management of the waters of said the natural flow said Lake creek and give sufficient time, before turning water from said reservoir, for said company or such other party to send some competent person to measure the flow of water from said reservoir, who shall also measure the ~~xxxx~~ amount of water to which said reservoir owner is entitled, after deducting his just and fair proportion of evaporation and seepage, from said Lake creek into the head of his canal or ditch; and such measurements shall be made as often during the time such water is flowing from said reservoir as the said company or such other party may deem necessary: and all necessary expenses of making such measurement shall be paid by the party owning the reservoir.

Seventeenth. That as a precedent to the rights herein <sup>decreed</sup> awarded to the owner or owners of any of said reservoir, the owner thereof shall,
